This listing of profile wrapping machine manufacturers has no ranking and is without classification of quality. There may also be other producers offering suitable products for RENOLIT EXOFOL films.

This technical information sheet represents our latest state of knowledge and shall inform without obligation. The herein stated details do not release the manufacturer using our products from their own inspections and tests, which must correspond with the relevant national guidelines for its individual intended purpose. It is the duty of the customer to determine if the purchased product is suitable for its intended purpose.

The recipient of this information shall neither forward nor publish the content or parts of it to third parties without prior written consent of RENOLIT.
